

# PROACTIVE MEDICATION OPTIMIZATION FOR MEDICAID MEMBERS

## A forgotten epidemic, adverse drug events (ADEs):

Are the 4th leading cause of death

Cause 1.3 million emergency room visits

Account for \$30 billion in avoidable costs

Vulnerable populations are disproportionately impacted by ADEs

### The solution:

Personalized, pharmacist-led clinical care to improve quality and health outcomes

#### PHARMACIST EXPERTISE

- Healthcare's foremost medication experts
- Experienced in serving dual-eligible members
- Uniquely qualified to manage and optimize member medication regimens

#### LOCATION SPECIFIC

- Pharmacists are members of the communities they serve
- Reach members regardless of disparate or rural locations
- Telephonic care eliminates need for transportation

#### MEMBER EXPERIENCE

- Bundled consultations reduce member abrasion
- Long-term relationships lead to better outcomes
- "My favorite pharmacist" feature allows for consistent future consultations

#### TECH-ENABLED PLATFORM

- Match pharmacists with members by condition, language, location, and specialty
- Hand off burdensome administrative work
- Trusted partner of the nation's top health plans

## MEET YOUR MEDICAID MEMBERS WHERE THEY ARE, VIRTUALLY.

Aspen RxHealth is the only clinical pharmacy partner to match members to pharmacists based on clinical and social factors, including condition, specialty, language, and geographic location. This creates a strong foundation upon which to build the care relationship.

## EXPERIENCED PHARMACISTS DELIVERING HIGH-QUALITY CARE

Clinical pharmacists create long-term care relationships - resulting in improved care

On-demand network conducts clinical outreach more efficiently than in-house teams

Avoid utilization of costly care such as emergency room or urgent care visits

Remove barriers to health literacy and accessibility with convenient, telephonic care
